

2021 Statement of Account

Dear Parents and Caregivers,

Every year the school, in conjunction with the Finance Committee, sets a schedule of costs for students attending the school. These costs provide for a range of extras not covered by the funding allocation, which comes from the Department of Education. An explanation of these costs across all the grades is below.

Due to Covid-19 restrictions during 2020, the cancellation of numerous events that had been pre-invoiced last year we have condensed the fees that are billed at the start year for this year and most incursions and excursions will be invoiced separately closer to the time of the event, once confirmed.

School Contribution (Voluntary)	Assists with purchasing and maintaining special equipment, developing teaching resources in all key learning areas, providing special learning programs and support services, producing newsletters and special information booklets, purchasing library books and computer software, purchasing sporting equipment and classroom teaching aids, purchasing computer tablets, interactive whiteboards and maintaining technology, all of which enriches students' learning. This is a voluntary contribution.
